

David F. Porinchu
April 2019

OFFICE Department of Geography Telephone: (706) 542-3058
University of Georgia Fax: (706) 542-2388
212A GG Building, 210 Field St. Email: porinchu@uga.edu
Athens, GA 30602

EDUCATION

- Ph.D. 2002. Geography, with distinction, University of California, Los Angeles.
Dissertation: *A Paleolimnological Investigation of Recent and Late Glacial-Early Holocene Changes in Climate in the Sierra Nevada, California USA.*
- M.Sc. 1997. Biology, University of New Brunswick, Fredericton, New Brunswick.
Thesis: *A Chironomid-Inferred Late-Quaternary Climate Reconstruction of the Lower Lena River Region, Siberia.*
- B.Sc. 1995. Geography and Environmental Science (minor: Ecology), *Summa Cum Laude*,
McMaster University, Hamilton, Ontario.
Thesis: *Recycling and Landfill Reclamation.*

APPOINTMENTS

- 2011 – Associate Professor, Geography, University of Georgia
- 2010 – 2011 Associate Professor, Geography, The Ohio State University
- 2004 – 2010 Assistant Professor, Geography, The Ohio State University
- 2004 Visiting Assistant Professor, Earth Sciences, University of Waterloo
- 2003 – 2004 Assistant Professor, Geography, California State University, Long Beach
- 2002 – 2003 Post-Doctoral Appointment, Geography, University of California, Los Angeles
- 1997 Research Associate, Biology, University of New Brunswick

AWARDS AND HONORS

- 2018 Global Collaborative Research Grant, University of Georgia
- 2018 Core Fulbright U.S. Fulbright-Nehru Fellowship
- 2014 Provost Summer Research Award, University of Georgia
- 2013 SEC Visiting Faculty Travel Grant, University of Georgia
- 2001 Dissertation Year Fellowship, Graduate Division, UCLA

RESEARCH GRANTS AND CONTRACTS

Awarded

- 2016-2018 National Science Foundation: Doctoral Dissertation Research: Climate and Environmental Change in the Colorado Rocky Mountains During the Late Quaternary: An Analogue for a Warm Future. D.F. Porinchu (PI) with D. Haskett (co-PI)
- 2016-2018 Department of the Interior: Benthic Invertebrate Response to Climate and Environmental Change in the Colorado Rocky Mountains during the Recent Past and the Holocene. D.F. Porinchu (PI)
- 2016-2017 Western National Park Association (WPNA): Meadow and lake-sediment based reconstructions of Holocene fire histories for sub-alpine and montane ecosystems in Great Basin National Park. D.F. Porinchu (co-PI) with S. Reinemann, B. Mark (co-PIs)
- 2012-2013 Department of the Interior: Paleoenvironmental Reconstruction of late Quaternary Conditions at Zeigler Reservoir, Snowmass Village, Colorado. D.F. Porinchu (PI)
- 2011-2013 Denver Museum of Nature and Science: Climate change and Pleistocene Megafauna Dynamics: A Case Study - Snowmass, CO. D.F. Porinchu (PI)
- 2011-2013 National Science Foundation: Doctoral Dissertation Research: Holocene Climate and Environmental Change in the Great Basin of the Western United States: A Paleolimnological Approach. D.F. Porinchu (PI) with S. Reinemann (co-PI)
- 2010-2012 Western National Park Association (WPNA): Recent and Historical Influence of Anthropogenic Activities in Great Basin National Park: Evidence from Lake Sediment and Water Geochemistry. D.F. Porinchu (co-PI) with J. Box (co-PI) and B. Mark (co-PI)
- 2009-2011 Climate, Water and Carbon Program, The Ohio State University: Assessing mid-Holocene Aridity in the midwestern United States: A Field-based Approach Incorporating Regional Climate Model Output. D.F. Porinchu (PI)
- 2006-2007 Western National Park Association (WPNA): Contemporary Climate History and Climate Change Impacts in Great Basin National Park. D.F. Porinchu (co-PI) with J. Box (co-PI) and B. Mark (co-PI)
- 2005-2009 National Science Foundation (NSF 04-587-0455089): A Synthesis of the Last 2000 Years of Climatic Variability from Arctic Lakes. D.F. Porinchu (PI)
- 2005-2006 American Philosophical Society: Reconstructing Late-glacial Climates in Ohio: Testing Climate Model Output. D.F. Porinchu (PI)
- 2004-2008 National Science Foundation (NSF 02-191-0402664): High-Resolution Quantitative Reconstructions of Holocene Climatic Changes and their Impacts on Environment and People in the Central Canadian Arctic. D.F. Porinchu (PI) with G. MacDonald (co-PI) and K. Moser (co-PI)
- 2004-2008 National Science Foundation (NSF 02-191-0402504): High-Resolution Records of Holocene Climate Change, Drought Variability and Monsoon Behavior from the Uinta Mountains in Utah. D.F. Porinchu (PI)

- 2001-2002 National Science Foundation Doctoral Dissertation Improvement Grant (NSF 0135748): High-resolution Time Series of Eastern Sierra California Over the Late Quaternary. G.M. MacDonald (PI) and D.F. Porincho (co-PI)
- 2000-2001 Geological Society of America Graduate Student Research Award: High Resolution Time Series of California Climate Over the Last 12,000 years: Testing the Influence of the North Atlantic and North Pacific. D.F. Porincho (PI)

PEER-REVIEWED PUBLICATIONS (* denotes student co-author, ^ post-doctoral co-author)

Under Review

*Wu, J., **Porincho, D.F.**, Horn, S.P. Late Holocene hydroclimate variability in Costa Rica: Signature of the Terminal Classic Drought and the Medieval Climate Anomaly in the northern tropical Americas. *Quaternary Science Reviews* (accepted pending minor revisions).

Porincho, D.F., MacDonald, G.M., ^Rolland, N., Kremenetski, K., Moser, K.A., Seppä, H., Rühland, K. Evidence of abrupt climate change at 9.3 ka and 8.2 ka in the central Canadian Arctic: Connection to the North Atlantic and Atlantic Meridional Circulation. *Quaternary Science Reviews*.

*Wu, J., **Porincho, D.F.** A high-resolution reconstruction of late Holocene fire regimes in the páramo of Chirripó National Park, Costa Rica: Evidence from charcoal and sediment geochemistry. *Quaternary Research*.
