RESEARCH ACTIVITY

LEADERSHIP, SYNERGISTIC RESEARCH ACTIVITIES:

Urban & Metropolitan Studies. I assembled a team of urban-focused scholars from five colleges to create a pair of multi-disciplinary certificate programs (one each for undergraduate students and graduate students) in urban & metropolitan studies. I managed the approval process for both certificate programs and currently serve as Director of the programs. We are in our first operational year and are seeing considerable interest from students.

“MixedMetro.com: Mapping Segregation and Diversity in America’s Cities” website provides interactive cartographic experience examining the racial configuration of the residential landscape in US cities. The interactive mapping tools used on this site are based on Google's Maps API and produce cartographic overlays. Initial development was supported by the Russell Sage Foundation and the National Science Foundation and focused on 16 metropolitan areas. We have now expanded the number of metropolitan areas to the 53 that have population over 1,000,000 (without the mixed-race household concentration layers) and have added 2010 Census data. The website comes with map analysis metrics in the form of transition matrices that depict the patterns of neighborhood change over time. This website and the published research on which it is based has been spotlighted by *U.S. News and World Report's* “At The Edge” blog, *The Atlantic Cities* website, and *The Washington Post*.

Group Leader, Community Context Work Group, Developing Center for Rural Intervention and Preventative Services, Center for Family Research, University of Georgia, 2003-2005. I formed and lead this Work Group for a National Institute of Mental Health-funded Developing Center Grant (Gene Brody, Velma McBride Murry and Anita Brown, Co-PIs). Members were drawn from six disciplines to develop new conceptual frameworks and new methodological approaches to investigating community and contextual relationships. Work Group outcomes include review papers, pilot research projects and a major research proposal funded by the Centers for Disease Control.

Co-Director, Community, Ethnicity & Identity in Context Discussion Group, Institute for Behavioral Research, University of Georgia, 2003-2005. The Institute’s interdisciplinary activities are organized into a series of Centers and Groups. Activities include recruiting members and organizing a calendar of discussion-oriented meetings based around presentations.

INSTRUCTIONAL FUNDING

2013 **Online Learning Fellowship**, Award to develop and teach an online version of Geography 3630 "Introduction to Urban Geography," Office of Online Learning, University of Georgia.

2013 **Innovation in Multicultural Curriculum Award**, Franklin College of Arts & Sciences, University of Georgia.

1998 **Instructional Technology Award**, Spatial Analysis Laboratory Computing Equipment Update, University of Georgia, \$3,200.

COURSES TAUGHT:

Introduction to Urban Geography, online version (Geog 3630E) UGA: Sophomore-level exposure to contemporary urbanization, including urban history, systems of cities, and internal spatial form of cities. Course is taught completely online.

Introduction to Urban Geography (Geog 3630) UGA: Sophomore-level exposure to contemporary urbanization, including urban history, systems of cities, and internal spatial form of cities.

Introductory Spatial Analysis (Geog 4300/6300) UGA: Senior- and graduate-level introduction to the use of basic statistical analysis techniques in geographic research. Core component of departmental MA/MS requirements.

Advanced Urban Geography (Geog 4630/6630) UGA: Senior- and graduate-level survey course, with variable topics.

Race, Inequality and the American City (Geog 4631/6631) UGA: Senior- and graduate-level course focused on the intersection between racialized identity, social inequality and urban space. New course developed Fall 2013 to serve the Department's new Community and Urban Studies Area of Emphasis for AB and BS degrees, and to satisfy the Franklin College of Arts and Sciences Diversity requirement.

Geographic Research Methods (Geog 6910) UGA: Graduate Research Design and Proposal Writing. New course developed Spring 2014 offered annually.

Seminar in Urban Geography (Geog 8630) UGA: Variable topics, including "Foundations in Urban Theory," "Urban Labor Markets," "Critical Race Theory," and "Geographies of Justice."

Multivariate Techniques in Geography (Geog 8300) UGA: Graduate-level seminar in the use of multivariate statistical techniques in geographic research; develops foundational knowledge and applied skills.

World Regional Geography (Geog 200 & H200) OSU.

World Urbanization (Geog 597) OSU.

Seminar in Urban Geography (Geog 850.01) OSU.

Applications of Quantitative Methods in Geography: Applications II (Geog 883.02) OSU.

Introduction to the City (Geog 305) UW - Madison.

Regional Development and Planning (Geog 312) UW - Madison.
